## FARM EXHIBIT

### BIGGEST SHOW

Say All the Many Farmers and Others Who Visit the Big Tent.

"The best exhibit on the 'fair grounds' is the usual comment of visitors at the Clarksburg fair after inspecting the educational exhibit arranged and shown by the Extension Department of the College of Agriculture, Morgantown. The exhibit occupies a large tent of its own and hundreds of people enter each day and linger long enough to study the various graphic illustrations of scientific agricultural facts.

"I wish I could stay in here all day to study these solutions of farm problems," said one gray-haired farmer after spending more than an hour in examining the object lessons in feeds and fertilizers, fruits and forage plants, insects and plant diseases, dairying and stock growing and the dozen other points of interest. And his remark seems to express the general sentiment of all observers for it is at once discovered that this exhibit not only delights the eye by exhibiting the biggest ears of corn, the finest heads of wheat, and the fattest yearling steers, but also appeals to the intelligence of the observer and shows him the way—if he will stop to study—in which he can grow better crops, raise better stock, make bigger profits and better enjoy country life.

The exhibit can be readily recognized by the sign, "College of Agriculture, West Virginia University," over the entrance to the large white tent and every visitor at all interested in agriculture should make it a point to spend considerable time in studying its various educational features.

This big tented exhibit is located near the cattle department.

## BIG CHECK

financially.

The Jackson Carnival Company, of Baltimore, has a target hitting device called the "African dip" that furnishes plenty of recreation and fun.

Zellers and Gehring, of West Union, have a game of cane ringing.

There are various other amusement features, enough to keep one busy every minute.

The ferris wheel as usual gets a large patronage.

Wanda Lee, is a youthful snake charmer. She is only three feet and six inches tall and only seven years old, but she is certainly a wonder in handling big, long and heavy reptiles.

#### Surprising Cure of Stomach Trouble

When you have trouble with your stomach or chronic constipation, don't imagine that your case is beyond help just because your doctor fails to give you relief. Mr. G. Stengle, Plainfield, N. J., writes: "For over a month past I have been troubled with my stomach. Everything I ate upset it terribly. One of Chamberlain's advertising booklets came to me. After reading a few of the letters from people who had been cured by Chamberlain's Tablets, I decided to try them. I have taken nearly three-fourths of a package of them and can now eat almost everything that I want." For sale by all dealers.—Advertisement.
